If coming by car, please drive carefully on arrival as there may be children playing

LILI is a non-profit organisation dedicated to helping protect the global environment by researching and promoting sustainable, low-impact alternatives to various aspects of everyday life. We believe that by incorporating these ideas into their lives, people can contribute to the protection of the environment, improve their quality of life and save money. LILI is based at Redfield Community, where 20 members share resources, and use the facilities covered in our courses on a daily basis. Visit our website or contact us to find out more about our courses, factsheets, books, online shop, events and home eco-audits.
